

Trip: Chulu West Peak Climbing

Url: <https://www.megaadventuresintl.com/trip/chulu-west-peak-climbing/>

Overview

MAI offers Chulu West Peak Climbing in affordable cost. Of the two Chulus (East and West), Chulu West (6,430 M) is the higher peak. It was first ascended in 1952 by a Japanese Expedition. The Base Camp of this peak is situated in a small valley north of Manang, off the main trail to the Thorang La. There is a controversy regarding the name and location of the Chulu West peaks. There are several peaks close by and are also a part of Chulu massif but are not indicated in the map. Thus it is difficult to differentiate between the two Chulus. However, the Chulu group comprises of four peaks: two in the east and two in the west. Chulu West may also be called Chulu Central. There is no technical difficulty in ascending this peak but progress can be slow as the slopes are vulnerable to avalanches in certain conditions.

Testimonials

They were reliable, timely, organized and above all fun!

My experience with **Mega Adventures** could not have been any better! When I arrived in Kathmandu, I was warmly received by a member of the staff who, after dropping my bags off at the hotel, kindly led me around the city. After spending a few days exploring that wonderful city and meeting my climbing guide, we flew out to Lukla to begin our trek. Our goal was to summit Island Peak with a stop at Everest base camp along the way for acclimatization. Throughout the trek, my guide and porter were incredibly supportive and engaging and taught me so much about the region and culture. Although we ultimately were unable to summit Island peak due to weather conditions (one of the greatest challenges of climbing) we did reach approximately 6,000m, the highest I had ever been. I was immensely satisfied with the climb. Though I have taken a mountaineering course previously and had the opportunity to climb many of the highest peaks in Washington State, I was new to the Himalayan Mountains. My guide taught me several new techniques to enhance safety while climbing and provided a safe, encouraging environment. I would highly recommend this guiding company, as they were reliable, timely, organized and above all fun!
